FOCUS OF THE TRAINING

The quality of teaching in early years is significantly enhanced by confident, knowledgeable practitioners and leaders who are able to support and challenge best practice. This session will encourage participants to consider how to develop a shared understanding of effective practice and a quality environment. It will encourage professional dialogue about improving teaching both indoors and out.

OUTLINE OF THE TRAINING & DEVELOPMENT PACKAGE

The session will be a mix of input and observation enabling participants to gain new knowledge, discuss concerns and reflect on practice in their own schools. There will be the opportunity to:

- Observe routines and the environment, both indoor and outdoor provision
- Discussion around planning, equipment and differentiation of the environment
- Discuss and look at the 'Floor Book' approach
- Observe Maths input

After observing the start of the session there will be a short seminar allowing participants to discuss specific areas they would like to focus on ensuring the session is as bespoke as possible. They will then observe children at work within the setting, both inside and out, have a tour of the learning environment explaining rationale, differentiation and how to meet the needs of all learners. At the end of the session they will come back together for a question and answer session. Possible additional areas of focus: Introduction of 2 year olds to school; Forest School philosophy, target setting, the use of 'loose parts' play, and engaging parents.
